

TimbersBliss

TimbersBliss high-quality wooden solutions for your garden!

Our selection includes products for every taste – stylish garden houses, cozy sauna houses, children's playhouses and garages.

Our products are made of high-quality wood and handcrafted, taking into account the wishes and capabilities of the customer. We can manufacture products for export according to the market needs and requirements of your country.

One of our main differences compared to others may be that we can offer our customers special solutions both in the form of existing products and completely according to your standards. In other words, you can order a product from us based on your drawing and sketch.

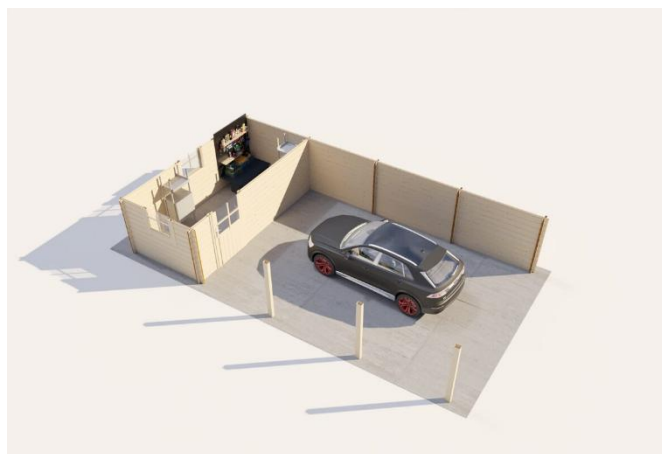

TimbersBliss

Garage V6 (30m²)

- weight: 1750 kg
- external dimensions: 4000 x 7500 cm
- roof area 40m²
- walls made of 44 mm thick spruce
- ceiling made of 18 mm thick spruce
- lockable double-glazed door, dimensions 905 x 1900 x 1 pc (can be replaced with a solid door)
- double-glazed opening window, 700 x 900 x 2 pcs
- screws and nails required for assembly included
- assembly instructions
- can be installed in mirror image
- if you want your garage to last a long time and be comfortable in all seasons, we recommend installing it on a slab foundation. A slab foundation ensures stability, keeps the structure straight and protects against subsidence caused by ground movement. In addition, we recommend using high-quality wood preservatives to protect your garage from weather, moisture, and UV radiation. Treating the wood will ensure that your garage stays beautiful and well-maintained for longer, withstanding both cold winter days and hot summer days. Invest in durability and enjoy your garage for years to come!

TimbersBliss
